**PRESENTED BY: Kim Barthel, BMR, OTR**

A course for Paediatric Occupational  
Therapists, Physiotherapists, and  
Speech- Language Pathologists.

**November 16-20, 2010  
8:30am to 4:30pm**

# Instructor: Kim Barthel

**Kim Barthel, BMR, OTR** is an author, consultant, occupational therapist and owner of a workshop company, Labyrinth Journeys. Kim is a Neuro-Developmental Treatment-OT Instructor and a teacher of Sensory Integration Therapy, with post-graduate study in neurosciences. Having recently authored the pediatric textbook: Evidence and Art: Merging Forces in Pediatric Therapy, Kim proficiently blends and bridges the connection between the science of connection and the intuitive aspect of the therapeutic process.

## COURSE DESCRIPTION

This intensive 5-day workshop is designed to acquaint OTs, PTs and SLPs working with children with movement disorders with an introduction to the Neurodevelopmental Treatment Approach. NDT certification is not required. Participants will experience typical and atypical development, broadening their understanding of the movement challenges faced by their clients. Practicums and treatment demonstrations will augment didactic instruction.

## Learning Objectives

- Participants will achieve a basic understanding of the components of movement in typical development 0-12 months
- Participants will achieve a basic understanding of the components of atypical movement
- Participants will achieve a basic understanding of the components of normal postural reactions necessary for motor function
- Participants will achieve a preliminary understanding of neurodevelopmental therapy concepts, principles of assessment and treatment

## ACCOMMODATIONS

We have secured a CDC rate of \$90/double occupancy for course attendees at the Coast Fraser Inn (285 Donald Road, next to Boston Pizza). Reservations can be made via phone at 1-800-716-6199, and you must quote confirmation number GFC348. The block of rooms will be held until October 15, 2010.
