BEYOND WEIGHTBEARING:

Developing Hand Function in Children

Instructor:
Kim Barthel
BMR,OTR

Fraser Valley Child
Development Centre

March 18-19, 2009

BEYOND WEIGHTBEARING: Developing Hand Function in Children

OT's and PT's working with children experiencing neurological challenges will benefit from participation in this intensive upper extremity workshop. This 3-day workshop will combine lecture, lab, video presentation and hands-on demonstrations with children. Content will focus on the characteristics of development of upper extremity use and grasp and manipulation in functional daily activities.

Registration is limited to 26 participants to provide an intimate learning opportunity with the instructor.

Course Objectives:

Upon completion of this workshop the participant will be able to:

- *Gain knowledge of the motor, sensory, cognitive and behavioral foundations for use of arm and hands for support, contact grasp and manipulation
- *Observe and identify essential postural, sensory and perceptual elements necessary to use the arms and hand functionally.
- *Identify missing elements in children with developmental, neuromotor or sensory processing challenges.
- *Set goals, plan treatment and identify strategies to optimize strengths and minimize barriers to performance.

COURSE OUTLINE

Day One

When in doubt treat the trunk!
- Postural Contributions to Upper Extremity Control
Trunk lab Session
Treatment Demonstration
Dynamic Stability for Reach in Space : Shoulder Girdle
Shoulder Girdle Lab

Day Two

Elbow, Forearm, Wrist and Hand
Lecture and Lab
Treatment of the Hand Lab
The Hand and Functional Grasp
Treatment Demonstration
Moving from Preparation to Performance: manipulation assessment and Treatment

Kim Barthel, BMR,OTR

is an author, consultant, occupational therapist, and owner of Labyrinth Journeys, a workshop company dedicated to providing professional and personal growth workshops. Kim is a Neuro-Developmental Treatment-OT Instructor and a teacher of Sensory Integration Therapy, with post-graduate study in neuro-sciences and a range of complementary healing practices. Having recently authored the pediatric textbook; Evidence and Art: Merging Forces in Pediatric Therapy, Kim proficiently blends and bridges the most up to date science of connection and attachment theory with the intuitive aspect of the therapeutic process. Kim's recent professional challenges include team strategy facilitation for acute pediatric/adolescent mental health cases, and creating sustainable care strategies in a wide variety of cultures throughout the world. Kim currently lives in Victoria, BC with her husband and thirteen year old daughter.
